INTRODUCTION

This manual is part of a total service support program.

FOS MANUALS – REFERENCE

Fundamentals of Service (FOS) Manuals cover basic theory of operation, fundamentals of troubleshooting, general maintenance, basic types of failures and their causes. FOS Manuals are for training new personnel and for reference by experienced technicians.

TECHNICAL MANUALS – MACHINE SERVICE

Technical Manuals are concise service guides for specific machines. Technical Manuals are on-the-job guides containing only the vital information needed by an experienced technician.

COMPONENT MANUALS – COMPONENT SERVICE

Component Technical Manuals are concise service guides for specific components. Component technical manuals are written as stand-alone manuals covering multiple machine applications.

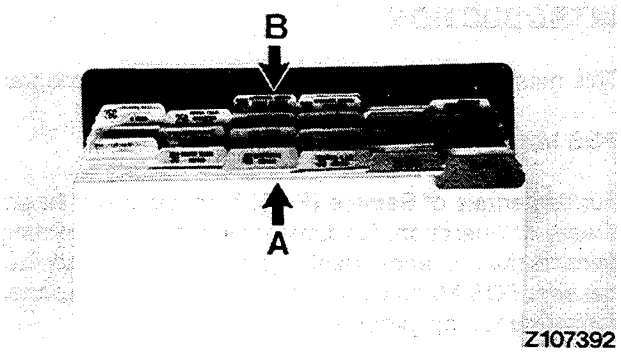
TECHNICAL MANUAL TABS

INTRODUCTION

To fully utilize this manual, you must understand how it is organized. Only two tab colors are used – green and yellow, each representing a different type of information. Spend a minute reading this now and save many minutes of searching later.

A-Green tabs **B-Yellow tabs**



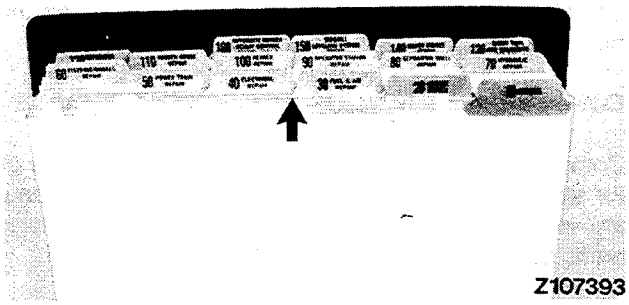
Z107392-ZI304AE-011085

GREEN TAB SECTIONS

The green tab sections are REPAIR sections, telling you how to repair components of the various systems.

Repair of a component includes:
- Removal from machine (if necessary)
- Disassembly
- Inspection
- Replacement of parts
- Assembly
- Adjustment
- Installation on machine (if necessary)

The numbers, used for the repair (green tab) sections, are part of an overall service publication numbering system. The numbers identify the same sections in the parts catalog, flat rate manual, service information bulletins and service training courses.



Z107393-ZI304AE-011085

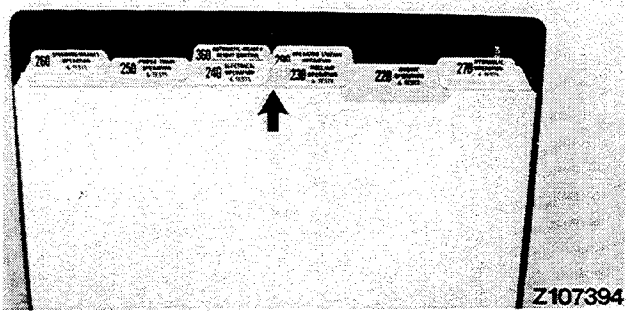
YELLOW TAB SECTIONS

Each yellow tab section contains information on:

- System Operation
- System Tests

System operation explains how the system and its components work.

System tests tell you how to test the system and diagnose the problem.



Z107394-ZI304AE-011085

TAB POSITIONS

Each green tab and its corresponding yellow tab have the same tab position. This helps you to quickly locate the related information.

A-Green tab
- **Section 70**
- **Hydraulic Repair**

B-Yellow tab
- **Section 270**
- **Hydraulic Operation/Tests**

THREE-STEP PROCEDURE

Use the following three-step procedure to locate the desired information.

1. Determine the type of information you need: Is it?

A – Repair
B – Operation
C – Tests

2. Go to the appropriate section tab:

Green – for Repair
Yellow – for Operation or Tests

3. Use the Table of Contents on the first page of each section to locate the information.

SERIAL NUMBER PLATES

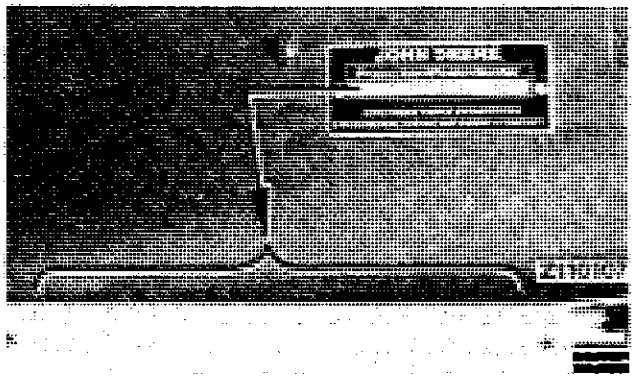
Serial numbers, identifying combine components or assemblies, are stamped on components or factory serial number plates. These numbers are required when ordering combine or component replacement parts. To ensure that you always have these numbers at hand, enter the appropriate serial numbers in the spaces provided in each illustration.

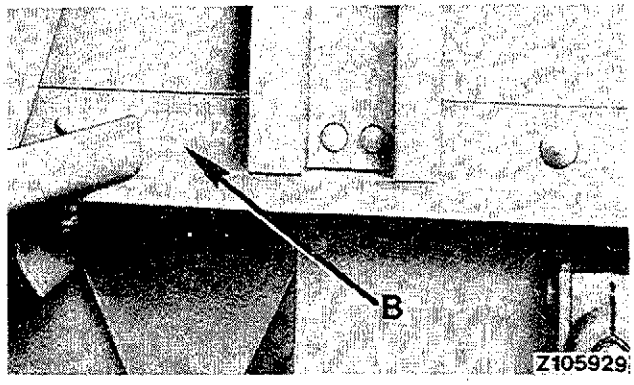
SEROM-1055AZE-311084

PRODUCT IDENTIFICATION NUMBER

The product identification number plate is located on the right-hand side of the operator's platform.

NOTE: In addition, the last seven digits of the product identification number are stamped on the right-hand frame (B) above the fan.

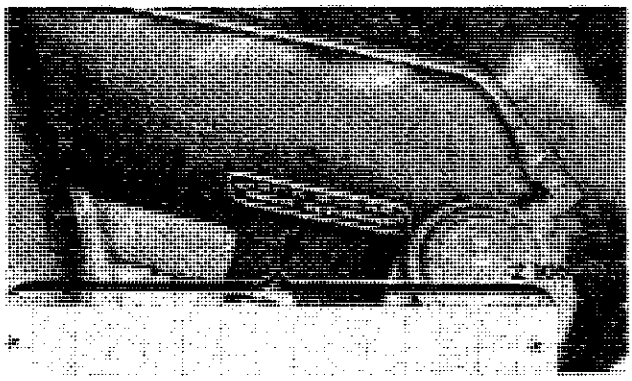




Z110107,Z105929-4425AZE-300985

ENGINE SERIAL NUMBER

The engine serial number plate is located on the right-hand side of the engine block, near the mechanical fuel transfer pump.

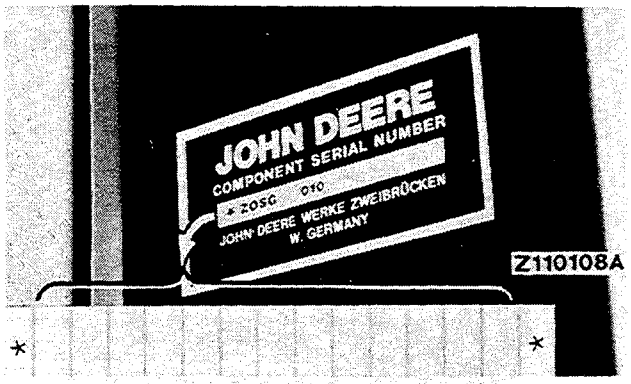


Z105931-4425AZE-300985

OPERATOR'S CAB SERIAL NUMBER

The operator's cab serial number plate is located on the inner side of the left-hand panel.

NOTE: The operator's cab serial number is identical with that of the air conditioning system.

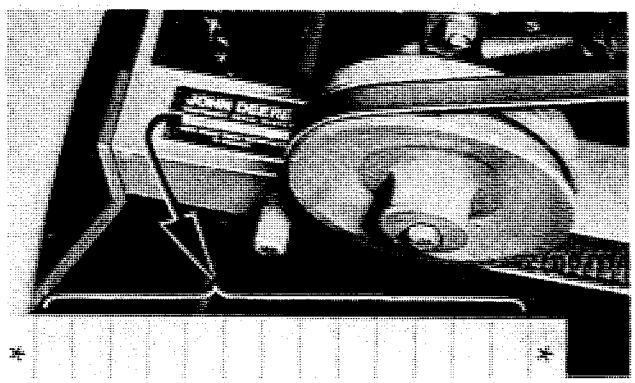


Z110108-4425AZE-300985

AIR CONDITIONING SYSTEM SERIAL NUMBER

The air conditioning system serial number plate is located on the right-hand rear corner of frame.

NOTE: The air conditioning system serial number is identical with that of the operator's cab.



Z110111-4425AZE-300985

STRAW CHOPPER SERIAL NUMBER

The straw walker serial number plate is located on left-hand outer side of straw chopper.
