OPERATING

Operate Safely

- Check brake action before you operate. Adjust or service brakes as necessary.
- Clear work area of objects that might be thrown by blades. Keep people and pets out of the work area. Stop machine if anyone enters the area.
- If you hit an object, stop the machine and inspect it. Make repairs before you operate. Keep machine and attachments properly maintained and in good working order. Keep all shields and guards in place.
- DO NOT leave machine unattended when it is running.
- Only operate during daylight or with good artificial light.
- Be careful of traffic when operating near or crossing roadways.

Park Safely

- Stop machine on a level surface, not on a slope.
- Disengage PTO
- Lower attachments to the ground.
- Engage park brake.
- STOP engine.
- Remove key.
- Before you leave the operator's seat, wait for engine and all moving parts STOP.
